 Pet Care Guide

Responsible pet ownership reminders from the City Veterinary Office

Vaccination Reminders

Keep your pet's vaccinations updated. Rabies boosters are recommended yearly, or as advised by your veterinarian.

Deworming

Deworm adult dogs and cats every 3 months, and puppies/kittens every 2 weeks until 3 months of age.

Proper Nutrition

Feed a balanced diet suited to your pet's age, size, and activity. Always provide clean drinking water.

Responsible Pet Ownership

Register your pet, keep them on a leash or within your yard, and clear up after them in public places.

Rabies Prevention

Rabies is fatal but preventable. Vaccinate your pet and avoid contact with stray or unvaccinated animals.

Basic Pet Care

Groom, bathe, and check your pet regularly. Trim nails, brush teeth, and inspect ears to catch problems early.

When To Consult A Veterinarian

Consult immediately if your pet shows lethargy, loss of appetite, vomiting, diarrhea, difficulty breathing, or unusual behavior.

Emergency Reminders

Keep your nearest veterinary clinic's number accessible. Do not self-medicate your pet without veterinary advice.
